Mass. Bureau of Statistics

# **ORGANIZATION AND FUNCTIONS OF THE MASSACHUSETTS BUREAU OF STATISTICS**

**Rooms 250-254 State House, Boston**

---

The Bureau is organized into five permanent divisions: 1. The *Administration Division*, charged with duties supervisory in relation to the several divisions; 2. The *Labor Division*, engaged in the collection and tabulation of statistical and other information relating to matters affecting labor and the condition of the working people, as well as questions of general economic and social interest; 3. The *Manufactures Division*, which collects and tabulates Statistics of Manufactures; 4. The *Municipal Division*, which collects and tabulates Statistics of Municipal Finances, audits municipal accounts and installs accounting systems in cities and towns, and supervises the issuance of town notes; 5. The *Public Employment Offices Division*, embracing the administration of the State Public Employment Offices, of which there are three, located respectively at 8 Kneeland Street, Boston; 47 Water Street, Springfield; and 48-52 Green Street, Worcester. During the period of taking and compiling the Census a sixth division, the *Census Division*, is organized.

The functions of the Bureau and the duties of the Director are summarized in Section 1 of Chapter 371 of the Acts of 1909, entitled "An Act to Provide for a Bureau of Statistics," as follows:

SECTION 1. There shall be a Bureau of Statistics, the duties of which shall be to collect, assort, arrange, and publish statistical information relative to the commercial, industrial, social, educational, and sanitary condition of the people, the productive industries of the Commonwealth, and the financial affairs of the cities and towns; to establish and maintain free employment offices . . . ; and to take the Decennial Census of the Commonwealth required by the Constitution and present the results thereof in such manner as the General Court may determine.

# UNION SCALE OF WAGES AND HOURS OF LABOR IN MASSACHUSETTS, 1917.

---

## INTRODUCTION.

This report is the eighth of a series of annual reports issued by this Bureau relative to the time-rates of wages and hours of labor prevailing in the organized industries and trades in Massachusetts.<sup>1</sup> The data herein presented were obtained principally as of the date July 1, 1917, at which time schedules of inquiry were sent, with few exceptions, to all of the local trade unions in the Commonwealth whose members were known to be working under a time-rate system.

In certain industries and trades, such as the boot and shoe industry, the textile industry, the metal trades, and the clothing trades, wages are paid on a piece-rate basis, but the piece-rates quoted are so numerous and the units of payment are so diverse that it has not seemed advisable to include them in this report. In those instances where organized workmen have endeavored to establish in an industry or trade a union scale of wages and hours of labor, but without any fair degree of success, such proposed scales have been omitted from this report. On the other hand, wherever, in any locality, a definite scale of wages and hours of labor has actually become effective in a strongly organized industry or trade, although it may not have been the subject of a formal, signed agreement between employers and employees, such scale has been included in this report.

The term "*time-rates of wages*", as used in this report, signifies the wages agreed upon in return for services for a specified period, *e.g.*, an hour, day, week, etc., and should not be confounded with *actual earnings*, since the earnings of employees depend both upon the rates of wages paid them and upon the *continuity* of their employment. The rates of wages

<sup>1</sup> Previous reports relative to time-rates of wages and hours of labor effective in the organized industries and trades in Massachusetts on the several dates specified were issued by this Bureau as follows:

- 1910 (October 1). Part I of the Forty-first Annual Report on the Statistics of Labor.
- 1911 (October 1). Labor Bulletin No. 91.
- 1912 (October 1). Labor Bulletin No. 96.
- 1913 (October 1). Labor Bulletin No. 97.
- 1914 (July 1). Labor Bulletin No. 107.
- 1915 (October 1). Labor Bulletins Nos. 114 and 115.
- 1916 (July 1). Labor Bulletin No. 120.

serve chiefly to show, by comparison with rates published in earlier reports, the upward or downward trend of wages. Although the rate of wages may increase during a specified period, a scarcity of work may effect even a reduction in the actual earnings during that period, while, on the other hand, an abundance of work, by making possible overtime employment or by reducing the amount of unemployment, may have a favorable effect upon the actual earnings even though the rate of wages may have remained unchanged. Again, in the case of employees receiving a daily rate, the working hours per day may be reduced, thereby increasing the rate per hour, but leaving the actual daily wages unchanged. Likewise, the granting of a weekly half-holiday, without loss of wages, effects an increase in the hourly rate of wages while the actual weekly earnings remain the same. The recent great demand for workmen, particularly at the shipyards and in the machine shops and metal trades establishments, has made it possible for many workmen, both organized and unorganized, to command wages considerably in excess of the standard union rates which, under normal conditions, would prevail in the several localities. Usually, however, the union scale has been retained as the standard, while the employees receive additional compensation in the form of efficiency, service, and night bonuses, premiums, and overtime payments at rates in excess of those paid for work during the regular working hours.

Time-rates are calculated in various ways, but generally by the hour, day, or week. Thus, in the building trades, the wages are generally calculated by the hour, while in most mills and factories a weekly rate prevails. In this report the rate or unit shown is that reported by the union to this Bureau. In some cases the organizations have returned a rate per hour, per day, and week, as well as an overtime and a Sunday rate, thus indicating that each rate has been established among their members. In other cases a rate for only one period has been returned, *i.e.*, for an hour or for a day, and in such cases only the rate returned has been entered in this report, for the reason that the daily or weekly rates may not, in many instances, be computed accurately on the basis of the hourly rates. Frequently the agreements between employers and labor organizations contain clauses to the effect that workmen commencing work shall be paid for at least one-half day even though the hours actually worked may amount to less than one-half day.

The "*union scale*" establishes merely a minimum rate, less than which members are not supposed to accept, and a maximum number of hours, in excess of which they may not work at the regular rate of pay, and in

most cases members are liable to definite penalties for violations of such union rules. In some localities and in certain trades workmen receive more than the prescribed minimum rate and in some instances employees work less than the prescribed maximum number of hours, such variations being generally the result of individual negotiations which are determined by special qualifications of the individual employee or by the peculiar conditions existing in any single trade or establishment. Agreements sometimes provide that old and infirm employees may work for less than the union scale. Except where otherwise noted, this report has reference only to the minimum rates of wages and maximum number of hours which have become effective in the various organized trades, and does not purport to show the extent to which there may be individual variations from the established scales.

The authority for the data presented in this report has been derived in most cases from information furnished by organizations of employees. Exceptions appear, however, in the case of employees in the steam and electric railway service and in telephone, telegraph, and federal service, regarding whom the necessary information was obtained from wage scales furnished for the most part by the employers.

Of the 1,578 local unions known to be in existence in Massachusetts on July 1, 1917, 896, having an aggregate membership of 129,641, are directly represented in these returns, and in addition to this number of organized workmen directly represented, large numbers of employees in steam and electric railway service and telephone, telegraph, and federal service, including both organized and unorganized employees, are represented by data furnished by their employers.

The preparation of this report has involved much correspondence with the officers of the various labor organizations in this Commonwealth and also a considerable amount of field work on the part of representatives of this Bureau. To some extent, also, it has been necessary to confer with the employers in order to supplement or confirm the data obtained from trade union officials. Almost invariably a spirit of hearty co-operation has been manifested by those whom it has been necessary to consult.

Worcester, . . .	15.00	10 <sup>1</sup> / <sub>2</sub>	10 <sup>1</sup> / <sub>2</sub>	10 <sup>1</sup> / <sub>2</sub>	10 <sup>1</sup> / <sub>2</sub>	10 <sup>1</sup> / <sub>2</sub>	12 <sup>1</sup> / <sub>2</sub>	5 <sup>1</sup> / <sub>4</sub>	5 <sup>1</sup> / <sub>4</sub>	59 <sup>1</sup> / <sub>4</sub>	

<sup>1</sup> In many localities a weekly wage of a stated amount is guaranteed and also a bonus consisting of a portion of the weekly receipts, exceeding a specified sum, taken in by each barber. Thus the bonus consists of one-half of the receipts in excess of \$18 in Haverhill; in excess of \$20 in Boston, Fall River, Framingham (in some cases), Lawrence, Lynn, Natick (in some cases), and Rockland; in excess of \$22 in Brockton, Quincy, and Waltham; and in excess of \$25 in Pittsfield and Salem.

<sup>2</sup> In localities where a barber is allowed a specified number of hours as a half-holiday each week, but on no stated day, the number of hours worked on a half-holiday varies according to the length of the day on which he takes such half-holiday. For example, if 5 hours is the time allowed as a half-holiday, and a barber takes it on a 10-hour day, he works on that day 5 hours, whereas if he takes it on an 11-hour day, he works 6 hours on that day.

<sup>3</sup> Minimum weekly rate with accompanying bonus; agreement specifies that for those receiving higher weekly rates of wages one-half receipts over stated amounts, varying with amount of weekly wages, shall be paid.

<sup>4</sup> Have two half-holidays weekly; one on Thursday, one on another day, not stated.

<sup>5</sup> Prevailing rate; no agreement establishing a minimum.

<sup>6</sup> Hours specified in agreement; in majority of shops men start work one-half hour later, making weekly hours 62.

<sup>7</sup> Rate specified in agreement; majority of employees receive \$15 or \$16 a week and a percentage of receipts over certain amounts.

<sup>8</sup> On August 6, 1917, hours of labor for Saturday were reduced to 12<sup>3</sup>/<sub>4</sub>.

<sup>1</sup> Rates, when expressed in terms of money, represent rates per hour. Symbols signify as follows:  $1\frac{1}{2}$  T.= Time and one-half; 2 T.= Double time.

<sup>2</sup> Spare or accommodation work, \$4 a day for Saturday; \$5 a day for Sunday.

<sup>3</sup> Two days, 6½ hours each; 3 days, 11½ hours each.

<sup>4</sup> Hotel men work 11½ hours on alternate Sundays, but in a majority of establishments have a day off during the week to compensate.

<sup>5</sup> One day 3 hours.

<sup>6</sup> On Sunday, 9 hours.

<sup>7</sup> With board.

<sup>8</sup> Without board.

<sup>9</sup> Two days, 6½ hours each; 3 days, 11½ hours each.

<sup>10</sup> First 5 days, \$3 a day; Saturday, \$4 a day.

<sup>11</sup> Prevailing rate; no agreement enforcing this rate.

<sup>12</sup> Three days, 6 hours each; 2 days, 12 hours each.

<sup>13</sup> On alternate Sundays 14 hours, averaging 7 hours on Sunday for entire year.

<sup>14</sup> Overtime on Saturday, 40 cents an hour.

<sup>15</sup> On Sunday, \$½ hours.

<sup>16</sup> Hotel men work 8 hours on Sunday, and for 5 days of the week work long and short days in alternate weeks; one week, work 11 hours each on 3 days, 7 hours each on 2 days, 12 hours on Saturday, and 8 hours on Sunday, — a total of 67 hours a week; the next week, work 7 hours each on 3 days, 11 hours each on 2 days, 12 hours on Saturday, and 8 hours on Sunday, — a total of 63 hours a week, making an average for the entire year of 65 hours a week.

<sup>17</sup> Saloon men, for 5 days of the week, work long and short days in alternate weeks; one week, work 11 hours each on 3 days, 7 hours each on 2 days, and 12 hours on Saturday, — a total of 59 hours a week; the next week, work 7 hours on 3 days, 11 hours each on 2 days, and 12 hours on Saturday, — a total of 55 hours a week, making an average for the entire year of 57 hours a week.

North Brookfield (examiners), . . . . .	-	-	11.00	1½ T.	2 T.	8½	5½	48	12

<sup>1</sup> Rates, when expressed in money, represent rates per hour. Symbols signify as follows: Reg. = Regular time; 1¼ T. = Time and one-quarter; 1½ T. = Time and one-half; 2 T. = Double time.

<sup>2</sup> Piece rates prevail extensively in the garment trades and in hat and cap making. The time rates here shown represent the wages of comparatively few workers in these occupations.

<sup>3</sup> In case of emergency a firm may employ one or two cutters at a weekly rate of \$24.

<sup>4</sup> In some establishments work 8½ hours on 4 days and 9 hours on 1 day; in others work 8½ hours on 5 days.

<sup>5</sup> Hours when employed; work is seasonal.

<sup>6</sup> Prevailing range of rates; no agreement establishing a minimum rate.

<sup>7</sup> Normal weekly earnings on piece work; no agreement establishing a minimum rate.

<sup>1</sup> In August, 1917, rates were increased: coat pressers to \$30 a week; skirt pressers to \$27; and all underpressers to \$24 a week.

<sup>2</sup> Hours when employed; work is seasonal.

<sup>3</sup> Bushelmen working on coats, employed in first class shops, receive 33 cents an hour when employed by the hour instead of by the week.

<sup>4</sup> Bushelmen working on coats, employed in second class shops, receive 25 cents an hour, when employed by the hour instead of by the week.

<sup>5</sup> During 3 months, work 5 hours on Thursday, 50 hours a week.

<sup>6</sup> On September 16, 1917, rate was increased to \$18 a week.

<sup>7</sup> No work before 8 A.M. or on Saturday afternoon; other overtime, time and one-half.

<sup>8</sup> No work on Sunday; on holidays, time and one-half.

<sup>1</sup> Rates, when expressed in terms of money, represent rates per hour. Symbols signify as follows: Reg.=Regular rate; 1 1/2 T.=One and one-half time; 2 T.=Double time.

<sup>2</sup> Minimum rates paid in different establishments.

<sup>3</sup> During 6 months, 5 hours on Saturday, 50 hours a week, without reduction in pay.

<sup>4</sup> In hay and grain or contract establishments receive same rate of wages and work same number of hours.

<sup>5</sup> On October 1, 1917, rate was increased \$1 a week.

<sup>6</sup> During 4 months, 10 hours on 4 days, 9 hours on Friday, 5 hours on Saturday, 54 hours a week.

<sup>7</sup> Prevailing rate; no agreement enforcing a minimum.

<sup>8</sup> Overtime rate 40 cents an hour, except on Saturday P.M. during the 6 months when the half-holiday is in effect, when double time is paid.

<sup>9</sup> During 5 months, 5 hours on Saturday, 50 hours a week.

<sup>10</sup> On September 15, 1917, rate was increased \$1 a week.

TABLE 10. TELEPHONE AND TELEGRAPH SERVICE — CONTINUED.

**Telephone Employees.**

*General Note.* — The data with reference to telephone employees were compiled from information furnished by the New England Telephone and Telegraph Company as of July 1, 1917. In December, 1917, and again in February and March, 1918, the schedules of rates were revised, the changes representing in most instances advances in wages.

The rates shown on page 86 apply to all employees of the Company covered by the several schedules, irrespective of their connection with unions of their craft. In each of the following municipalities there is an organization of telephone operators: — Boston (also an organization of clerical telephone employees), Brockton, Concord, Fall River, Fitchburg, Framingham, Haverhill, Lawrence, Lowell, Lynn, New Bedford, Newburyport, North Adams, Pittsfield (including Great Barrington), Salem, Springfield, Taunton, and Worcester.

The exchanges were classified in five groups and a different wage schedule has been adopted for each group of exchanges. The exchanges in Massachusetts to which the several schedules apply are as follows:

<i>Schedule A, Boston, Metropolitan Division.</i>			
Brockton.	Holyoke.	Lynn.	Salem.
Fall River.	Lawrence.	New Bedford.	Springfield.
Haverhill.	Lowell.	Pittsfield.	Worcester.
<i>Schedule B.</i>			
Fitchburg.			North Adams.
Framingham.			Northampton.
Gloucester.			Taunton.
Greenfield.			
<i>Schedule C.</i>			
Amesbury.	Danvers.	Marlborough.	Saugus.
Amherst.	Falmouth.	Middleborough.	Sharon.
Andover.	Franklin.	Milford.	Southbridge.
Athol.	Gardner.	Nahant.	Stoughton.
Ayer.	Hudson.	Natick.	Walpole.
Beverly.	Hyannis.	Newburyport.	Wareham.
Buzzards Bay.	Leominster.	Peabody.	Webster.
Chicopee.	Mansfield.	Plymouth.	Westfield.
Clinton.	Marblehead.	Rockland.	Whitman.
Concord.			
<i>Schedule D.</i>			
Beverly Farms.	Hamilton.	Nantucket.	Scituate.
Bridgewater.	Ipswich.	Orchard.	Ware.
Cotuit.	Lee.	Palmer.	Westborough.
Easthampton.	Manchester.	Rockport.	Winchendon.
Great Barrington.	Martha's Vineyard.		

The hours of labor for clerks are usually 48 per week (six days of eight hours each) and for operators range from 32 to 48 per week, varying according to exchanges and time of assignment. Student operators, operators, senior operators, and supervisors assigned to forenoon-evening or afternoon-evening tricks are paid \$1.00 more per week than day employees of corresponding service. Operators on "night, second half" assignments (10 P.M. to 7 A.M.) are paid \$2.00 per week more than day operators of corresponding service. Operators on "half night" assignments (10 P.M. to 7 A.M., sleeping 12.00 to 6 A.M.) are paid at the rate of day operators up to a maximum of \$10.00 (class B), \$9.50 (class C), and \$8.50 (class D). Operators are paid at the rate of time and one-half for overtime and Sundays and double time for holidays. Part-time operators receive \$0.15 per hour on assignment, \$0.16 at end of three months, \$0.17 at end of six months, and \$0.18 at end of 12 months.

<sup>1</sup> With the exception of stationary firemen and moving picture operators there are no regular hours for employees in this classification. Wages are paid by the performance, by the day, or by the week, regardless of the number of hours worked. The three rates in the different localities are shown, where possible, but have no connection with each other, although entered on the same line for convenience.

<sup>2</sup> Overtime is any time worked before hour set for reporting at theatre, or after stage has been cleared after performance, or work on Sunday. Rates, when expressed in terms of money, represent rates per hour. Symbols signify as follows: Reg. = Regular time; 1 $\frac{1}{2}$  T. = One and one-half time; 2 T. = Double time.

<sup>3</sup> On September 1, 1917, rate was increased \$3 a week.

<sup>4</sup> On September 1, 1917, rate was increased to \$1 an hour.

<sup>5</sup> For work on Sunday.

<sup>6</sup> Rate effective September 1, 1917; former rate not stated.

<sup>7</sup> On holidays, regular rate; on Sundays, double time.

<sup>8</sup> Same rates apply in Framingham, Natick, and Newton.

<sup>9</sup> On Sunday, double time, except regular rate when putting on show.

<sup>10</sup> Per morning of 3 hours or less, 75 cents.

<sup>1</sup> Rates, when expressed in terms of money, represent rates per hour. Symbols signify as follows: Reg.=Regular time; 1¼ T.=One and one-quarter time; 1½ T.=One and one-half time; 2 T.=Double time.

<sup>2</sup> Billers traveling with circuses receive \$15 and expenses.

<sup>3</sup> Same rates and hours apply in Haverhill and Lowell.

<sup>4</sup> Prevailing rate; no agreement establishing a minimum.

<sup>5</sup> During 4 months, 5 hours on Saturday, 55 hours a week.

<sup>6</sup> During 3 months, majority of stores close at 1 P.M. on Saturday. Some stores close all day Saturday during July and August. The prevailing weekly hours in department stores are 48½, except during those weeks when the half-holiday is in force, when the employees work 7½ hours on 4 days, 8 hours on 1 day, and 4½ hours on Saturday, or 42½ hours a week.

<sup>7</sup> Minimum rate for all males except bundle boys.

<sup>8</sup> On Wednesday, 6½ hours.

<sup>1</sup> Employed in industries not elsewhere specified. These rates do not apply to high-salaried officials whose compensation is subject to special determination. About November 1, 1917, a State-wide scale was established giving men in charge of first-class plants \$35 a week; of second-class plants, \$30; and of third-class plants, \$25 a week. This scale has been accepted in Boston, Brockton, Lowell, and Lynn. Rates shown above are those in effect on July 1, 1917, in these cities.

<sup>2</sup> Operators who act as chiefs of watch receive same rates as men in charge.

<sup>3</sup> In plants running continuously, 8 hours a day; in others, hours vary according to needs of establishment.

<sup>4</sup> In plants running continuously, 8 hours a day; in other plants, 10 hours a day.

<sup>5</sup> Prevailing rate of wages; no agreement enforcing a minimum rate.

<sup>6</sup> In some cases Saturday half-holiday is in effect from 6 to 12 months.

<sup>7</sup> On October 1, 1917, rates of \$32, \$30, and \$28 a week went into effect in first, second, and third class plants, respectively.

<sup>8</sup> On Sundays, time and one-half; on holidays, double time.

<sup>9</sup> During 6 months, 5 hours on Saturday, 55 hours a week.

<sup>10</sup> Prevailing range of rates; no agreement establishing a minimum rate.

<sup>1</sup> Rates of wages shown are rates per day except where otherwise specified and were those in effect on July 1, 1917. Since that date the rates have been revised in a large number of instances and some new positions have been added. Salaries of officials receiving more than \$2,100 per annum are not shown. Eight hours constitutes a day's work for all mechanics, laborers, and workmen. Per diem employees are paid for each day upon which they render service and are paid, in addition, for all holidays. Employees, such as watchmen, teamsters, engineers, assistant engineers, firemen, etc., whose pay is either annual or monthly, are paid for thirty (30) days in each month and, if called upon, are required to render service on each day. Employees other than mechanics, laborers, and workmen, whose compensation is either annual or monthly, such as draftsmen, inspectors, etc., are not limited to eight hours in any one day, but ordinarily work eight hours per day.

<sup>2</sup> Rate per month.

<sup>3</sup> Sixth class, \$3.52.

<sup>4</sup> Rate per year.

<sup>5</sup> Rate per year. Sixth class, \$1,320; seventh class, \$1,440; eighth class, \$1,540; ninth class, \$1,650.

<sup>6</sup> Fourteen classes in all; maximum, \$150 per month.

<sup>7</sup> Twelve classes in all; maximum, \$140 per month.

<sup>8</sup> Eight classes in all; maximum, \$2.72 per day.

<sup>9</sup> Eight classes in all; maximum, \$3.36 per day.

<sup>10</sup> Twelve classes in all; maximum, \$4.32 per day.

<sup>11</sup> Ten classes in all; maximum, \$2.88 per day.

## C. STEAM AND ELECTRIC RAILWAY SERVICE.

### STEAM RAILROAD SERVICE.

*Introductory Note.* — The information presented in the following table (Table 16) has reference to those occupations, only, which are peculiar to railroad service and which relate primarily to the operation of trains. The rates of wages and hours of labor as in effect on July 1, 1917, appear in the table. Certain general changes which have taken place since that date have been discussed in notes accompanying the respective groups of occupations to which they severally refer.

Special attention should be called to the fact that the hours of labor and the overtime and emergency rates of pay in the case of employees engaged in the operation of trains were adjusted, in accordance with the provisions of the so-called "Adamson Act." This act, passed by Congress early in September, 1916, provided, in brief, that, beginning January 1, 1917, eight hours should be deemed the standard or measure of a day's work, for the purpose of reckoning the compensation of all employees engaged in the operation of trains (with certain specified exceptions).

It is the custom of the steam railroad companies operating within this Commonwealth to issue from time to time printed "Rules," applicable to employees in the several branches of service, showing the rates of pay, hours of labor, and other conditions of employment. These printed rules virtually constitute written agreements between the companies and their employees. Owing to the varying nature of the several branches of service it is exceedingly difficult to present in one uniform tabular statement the essential items of information contained in these schedules. Thus, conductors, trainmen, locomotive engineers, and locomotive firemen receive compensation based on mileage covered, but certain minimum rates of wages an hour, day, or month are guaranteed. For employees engaged in station and other local service the rates of pay and hours of labor vary according to local conditions. The hours of labor of those who are actually employed in the movement of trains, including conductors, locomotive engineers, locomotive firemen, trainmen, and telegraph operators, are regulated by the Federal law applicable to that class of service.

In view of the foregoing considerations it was deemed advisable to present the information in a series of tabular statements, each of which has been so devised as to bring out the essential facts with reference to the several occupations considered therein. Data with reference to steam railroad employees are presented for four railway systems operated in part or wholly in Massachusetts, designated by capital letters as follows: (A) Boston and Albany Railroad, (B) New York, New Haven, and Hartford Railroad, (C) Boston and Maine Railroad, and (D) Boston, Revere Beach, and Lynn Railroad. It will be observed that the rates of pay and hours of labor applicable to employees in train and yard service are quite uniform for three of the railroad systems considered. Attention is called to the fact that the rates of pay and hours of labor applicable to railroad employees are not confined merely to those portions of the several railroad systems which are within the confines of the Commonwealth, but are applicable likewise throughout the entire systems.

<sup>1</sup> See second paragraph of "Introductory Note" on page 123. Overtime is time in excess of 8 hours a day or 100 miles a day, except for extension circuit trips, so called. Unless otherwise stated in the table it is paid for pro rata. For extension circuit trips the payment is for not less than one-quarter of a day, for a round trip or fraction thereof. Special conditions apply to employees tied up on runs under the 16-hour law, or 14-hour law. The abbreviation "Reg." signifies regular rate or "pro rata."

<sup>2</sup> Emergency rates for all employees except as shown in the table are as follows: —

On Railroad A the rate for emergency service is one-half day's pay for less than four hours and not less than a day's pay for over four hours.

On Railroad B rate for emergency service of more than 30 minutes and less than two hours is paid on an hourly basis, 60 minutes or less to count as one hour; service of less than four hours or less than one-half of daily mileage — rate is one-half day's pay; over four hours or more than one-half daily mileage — rate is full day's pay.

On Railroad C rate for emergency service of 12½ miles or less or one hour or less is as for 12½ miles; over one hour or over 12½ miles but less than four hours or less than 50 miles is as for 50 miles; over four hours or over 50 miles is a day's pay.

<sup>3</sup> Weekly rate; on July 26, 1917, rate was increased to \$18.25.

<sup>4</sup> On July 26, 1917, hours were reduced to 8 a day.

<sup>5</sup> Weekly rate; on July 26, 1917, rate was increased to \$17.

<sup>6</sup> Hourly rates; paid different rates according to location of yard.

<sup>7</sup> Hourly rate.

Railroads A, B, and C, . . . . .	4.25	\$0.53 <sup>1</sup> / <sub>2</sub>	.0425	100	5

<sup>1</sup> Rates shown do not include rates paid for emergency service, so called, or special rates for certain duties. On Railroad A engineers in train service when resuming duty on continuous trips, after having been tied up under the law governing hours, are paid from tie-up point to terminal on following basis: For 50 miles or less, or 4 hours or less, payment is for 50 miles; for more than 50 miles or over 4 hours, payment is for 100 miles. Engineers of road freight trains, when required in emergency to go with stock to certain yards, are allowed a minimum road rate of 2 hours after arrival at yard. If time exceeds 2 hours they are allowed 3 hours' pay; if it exceeds 3 hours, 4 hours' pay, etc. Engineers in switching service receive road rates for work in certain yards.

On Railroad C, emergency service (extra work required between regular laid-out day trips or before registering off duty) payment for  $12\frac{1}{2}$  miles is allowed for less than  $12\frac{1}{2}$  miles, or less than one hour's work; payment for 50 miles is allowed for over  $12\frac{1}{2}$  miles and less than 50 miles, or for over one hour and less than 4 hours; a day's pay is allowed for 50 miles or over, or for 4 hours or over. For emergency service in making locomotive repairs, payment is for one hour when employed less than an hour; 4 hours for over one hour but less than 4 hours, and one day's pay for over 4 hours and up to 8 hours. Passenger engineers who are required to heat trains, who repair engines at points where no men are employed for the purpose, or perform other extra service for which extra time is agreed to be paid, are paid 50 cents an hour. In switching service 29 minutes or less are not counted in paying overtime. For over 29 minutes payment is for one hour; for over one hour and less than 4 hours, payment is for 4 hours; for 4 hours or over, one day's pay.

<sup>2</sup> Rates paid according to class of engine.

<sup>3</sup> Weekly rate; on July 26, 1917, rate was increased to \$27.75.

<sup>4</sup> On July 26, 1917, hours were reduced to 8 a day.

<sup>5</sup> Weekly rate.

<sup>6</sup> First 5 days, 9 hours, 53 hours a week; on July 26, 1917, hours were reduced to 8 a day.

<sup>1</sup> Where more than one rate is paid, the maximum and minimum rates only are shown. The rates paid to employees in some occupations vary according to priority of service, or local conditions. Overtime rates are as follows:—

*Railroad A.*—Regular maintenance men in charge of large plants or sections are paid for 7 days a week, but work only 8 hours on Sunday. Construction men work 6 days a week and are paid time and one-half for all overtime. When regular maintenance men work with construction men on Sundays, during extensive repairs, they receive time and one-half.

*Railroad B.*—Time and one-quarter is paid for overtime on Sundays, July Fourth, Labor Day, Thanksgiving Day, and Christmas Day up to 6 p.m.; time and one-half thereafter. On other days regular rate is paid up to 8 p.m.; and time and one-half thereafter. When called out at night, time and one-half is paid.

On Railroad B the hours of labor were changed in June, 1917; for 6-day men, 9½ hours on 5 days and 8 hours on Saturday; for 7-day men the same hours on 6 days and 8 hours on Sunday; all to be paid for 10 hours a day and all overtime at the rate of time and one-half.

*Railroad C.*—Regular maintenance men are paid time and one-half for all emergency work due to conditions over which they have no control, such as accidents, breakages, or climatic conditions. Construction men are paid time and one-half for all overtime.

<sup>2</sup> Rate was increased 35 cents a day on October 27, 1917.

<sup>3</sup> Minimum rate was increased to \$0.70 and maximum rate to \$27.95 a week on November 24, 1917.

<sup>4</sup> Rate was increased 6 per cent. on August 18, 1917, and 5 per cent. on November 17, 1917.

<sup>5</sup> Rate was increased to \$3.93 on October 27, 1917.

<sup>6</sup> Rate was increased to \$30.50 on October 27, 1917.

<sup>7</sup> Rate was increased 45 cents a day on October 27, 1917.
